Good Morning,

We are writing in support of Eastline Village, a proposed mixed use development for the southwest corner of Apache Boulevard and River Drive.

This project will benefit the revitalization of the Apache Boulevard corridor. It will serve as an anchor for development on the west side of Apache Boulevard. Presently there are so many empty lots in that area and they set the mood for the rest of the Boulevard.

We are so excited about the caliber of Eastline Village. This project is exactly the kind of development that the building of the light rail line was supposed to attract.

We recommend that it be approved.

Regards,

Tempe Apache Boulevard Association
