~~B. Collection of household appliances/white goods:~~

~~1. Residential and commercial establishments desiring to dispose of household appliances, or white goods, may do so through City solid waste services on a weekly basis. The owner/tenant is required to call the public works department to request a collection, secure all items and materials, and place them out at curbside or in the alley, where solid waste services are provided for collection by the City the night prior to the scheduled date for collection. Residential and commercial establishments requiring this service will be charged \$10.00 per appliance, plus the service call. White goods may not contain any putrescible material and the City will refuse collection if such material is found. White goods with putrescible material shall be disposed of by the owner at the City's designated disposal site and the owner shall pay all applicable fees attendant thereto.~~

V. Miscellaneous Conditions and Restrictions

A. If a customer requires refuse collection from a combination of the above-stated collection methods, the public works director or his/her designee is authorized and directed to establish a monthly rate which will equitably reflect the schedule of charges established herein for each method of collection.

B. The public works director or his/her designee is authorized and directed to equitably recover from the customer the cost of landfill tipping fees in the excess of the monthly rate charged, when the weight of the container serviced exceeds the weight upon which the service rate is based.

C. Residential solid waste collection accounts shall not be eligible to petition the city for temporary discontinuance of refuse service.

D. In the event that a customer fails to pay for refuse service, a qualified representative of the city shall be authorized to discontinue water service or other city services to the property until such time as payment is made and arrangements approved by the internal services department to bring the account up to date.

E. Charges for refuse service to newly-constructed residential structures shall commence upon final inspection and approval of such structures by the city building inspector unless no service is required for the property.
