Re: Tempe JOC City Wide Small Valve and Fire Hydrant Replacement Package #07 Rev.1

Dear Mr. Jurgemeyer:

Enclosed for your review and consideration is our bid proposal for the replacement of the following valves and fire hydrants identified by the City to be replaced:

Tempe ID #		
SE28N4VL0044	SE28N4VL0013	NE28N4FH0010
NE33N4VL0006	SE28N4VL0012	NE28N4FH0009
SE28N4VL0027	SE28N4VL0007	NE28N4FH0008
SE28N4FH0026	SE28N4FH0018	NE28N4FH0007
SE28N4VL0026	SE28N4FH0019	SE16N4VL0068
SE28N4FH0021	SE28N4FH0020	SW15N4VL0093
SE28N4VL0031	NE28N4FH0016	

Also enclosed are the corresponding GIS maps for these valve locations. As service laterals are not indicated on these maps, nor all the valves that must be closed for the shutdowns, we anticipate that the City will provide us a list of customers who will be effected with each waterline shutdown. To minimize disruption to the City of Tempe customers, CSW will complete this work during off-peak hours between 8:30am – 3:30pm on weekdays. We understand that this time frame may not be the best time to shut down a waterline in certain areas, therefore, we will be flexible in our schedule to accommodate the City and its residents and businesses. If necessary, we can complete the valve replacements during weekend or evening hours as well. We will also assist the City in distributing door hangers and/or flyers as necessary to alert the customers of the water shutdowns.

Based on the plans, the information above and the scope of work attached, CSW will complete the Tempe JOC City Wide Small Valve and Fire Hydrant Replacement #07 project for the Lump Sum price of $295,075.31.

Should you have any questions, concerns, or comments, feel free to contact me at 602-266-7000.

Sincerely,

Joseph Kilgallen
