PROBLEM/IDENTIFICATION AND RESOLUTION

The City of Tempe has an estimated population of 169,712 with an incorporated land area of almost 40 square miles. Tempe is home to Arizona State University which is situated in downtown Tempe, having a current student enrollment that exceeds 50,000. Tempe is a landlocked city and has designed future growth by expanding vertically. There is unprecedented growth in and around the downtown and town lake areas. While some projects are understandably stalled in the current economy, Tempe is expected to rebound sooner than other Arizona municipalities. The city experienced its highest building permit valuation in the last quarter of 2008. In addition, there are currently over 5000 student housing units underway, both private and publically funded. New restaurants, bars, entertainment and retail space are also integrated into these projects. These developments will continue to bring a large volume of traffic to the City of Tempe.

The perimeter of Tempe is enclosed by freeways including the I-10, S.R. 202, S.R. 101, S.R. 143 and U.S. 60, which divides the center of the city from east to west. The City of Tempe is an urban core city with Arizona State University at its center. Tempe has approximately 88 miles of arterial roadway, providing major corridors for workers commuting throughout the metropolitan Phoenix area. Approximately 30,000-50,000 vehicles commute each day on the arterial roadways throughout Tempe. Tempe has an additional challenge this year as the freeway systems that surround Tempe are undergoing numerous construction projects. These freeway restrictions cause large amounts of traffic volume to be re-routed onto Tempe roadways and will potentially cause additional motor vehicle collisions.

Tempe provides a notable night life and hosts over 275 special events each year. These events include the Insight Bowl, ASU athletic games, numerous concerts at Tempe Beach Park, Fourth of July Celebration, New Years' Eve Block Party and numerous other large events. In addition, the City has 375 liquor licenses issued to various bars and restaurants.

These factors have caused a significant traffic enforcement challenge to the Police Department. It is clear from the data that traffic congestion will continue to increase bringing the potential for damage or injury to the residents and visitors who transverse the roadways and highways within the City of Tempe.

OBJECTIVE:

Federal 402 funds will support Personnel Services (overtime) and Employee Related Expenses in order to conduct a Selective Traffic Enforcement Program.

This project will be targeted at identifying and taking enforcement action on aggressive drivers, impaired drivers, occupant protection, speeding, and other highway safety related laws to reduce injuries and fatalities throughout Tempe by seven percent.

METHOD OF PROCEDURE:

With the help of each patrol district areas of high concern for aggressive driving will be identified and focused upon and will both generate citations and increase public awareness to the hazards of speed.

The Tempe Police Department will include the following activities as part of the enforcement operations:

1. To maximize effectiveness of the 402-funded overtime and enforcement equipment, the Tempe Police Department will determine enforcement activities by using one or a combination of the following:
 - a) Citizen complaints
 - b) Traffic crash data
 - c) Holidays
 - d) Community events
2. Conduct ongoing public information and education programs to promote traffic safety and driver awareness.

The Governor's Office of Highway Safety has public information and education materials. These materials may be available at no cost to highway safety advocacy groups and jurisdictions. Personnel of the Tempe Police Department may distribute these materials at health fairs, community events, and enforcement activities, i.e., sobriety checkpoints and news conferences.

3. Participate in multi agency task forces, specifically the statewide Arizona DUI Task Forces.

The Tempe Police Department will also participate, as necessary, with the Arizona statewide DUI Task Forces. The mission of these Task Forces is to *"Unite Arizona communities to implement a coordinated public information and education campaign along with combined DUI enforcement activities with an emphasis on holidays and specific event days throughout the year."*

And, in addition, it is the responsibility of the Tempe Police Department to report all holiday task force or individual agency enforcement statistics to

GOHS on-line at the GOHS website no later than 1000 hours the morning following each day of the event. The holidays and special events include: Super Bowl Sunday, Valentine's Day, President's Day, St. Patrick's Day, Spring Break, Easter, Cinco de Mayo, Prom Night, Memorial Day, Graduation Day, Independence Day, Labor Day, Columbus Day, Halloween, and the Thanksgiving through New Year's details.

PLEASE NOTE: Failure to report statistics on time and correctly may result in reimbursements being denied.

Errant drivers contribute to the growing problems of hazardous traffic conditions and criminal acts related to traffic. To adequately address these unique issues, a concentrated and dedicated enforcement and a public awareness campaign is mandatory. To successfully modify errant drivers, the law enforcement must develop a new strategy. This strategy must include intensive pro-active enforcement and public awareness campaigns.

The Tempe Police Department will carry out a comprehensive enforcement and public awareness program. This program will specifically target speed, DUI, seat belt, and child restraint violations. The Tempe Police Department agrees that the key to a long-term solution to the problem of errant drivers is education. This program will actively participate in a public information and education campaign using both the electronic and printed media. This activity will include carrying out a comprehensive program of public service and awareness announcements that will detail the objectives of the program. The Tempe Police Department will design these to heighten the awareness of the public to the hazards of excessive speed, aggressive driving, DUI, seat belt, and child restraint violations.

It is the policy of this program that personnel will take an aggressive approach to the enforcement of traffic and criminal statutes relating to these violators. The goal of the officer will be to correct the offender's behavior in a way that will make a lasting impression. Standard enforcement approaches may not result in such permanent change. Therefore, strict "zero tolerance" enforcement will be the methodology during this program.

IMPAIRED DRIVER ENFORCEMENT OVERTIME REQUIREMENTS:

Overtime funding through this contract is limited to officers and/or deputies that, at a minimum, are certified in Standardized Field Sobriety Testing (SFSTs).

PRESS RELEASE:

Agencies are required to develop and distribute a press release announcing this grant award (a copy of this press release shall be sent to the GOHS Director at the same time it is sent to the media). This press release shall include the objective and specify that the funding is from the Governor's Office of Highway Safety.
